# 🔄 Fix Repetitive Challenges - Instructions for Response & Behaviour Sections

## 🚨 Problem: Same Challenge Every Time

**Symptom:** Chatbot keeps generating “Light & Shadow Stories” repeatedly

**Root Cause:**
- Behaviour instructions don’t enforce variety
- Temperature setting may be too low
- No explicit rotation rules

**Solution:** Update both “Behaviour Instructions” and “Response Instructions” sections

---

## 📝 PART 1: BEHAVIOUR INSTRUCTIONS

**Go to:** https://apps.abacus.ai/chatllm/?appId=13a86b8346

1. **Remember challenges already given** in this conversation
2. **Check:** "Have I used this theme/location recently?" → If yes, pick different one
3. **Rotate categories:** Street → Portrait → Architecture → Market → Abstract →
Nature
4. **Change locations:** Flinders St → QV Market → Hosier Lane → Southbank → etc.
5. **Vary techniques:** Light → Reflections → Motion → Patterns → Color → Shadows
6. **Mix difficulty:** MINI → BEGINNER → INTERMEDIATE → ADVANCED (cycle through)
7. **Different lenses:** Rotate 23mm, 35mm, 56mm recommendations

# ✅ COMPLETE EXAMPLE

**🎯 Market Energy: Candid Moments & Stories**

Head to Queen Victoria Market during the bustling morning hours and capture the vibrant energy of Melbourne's iconic market! Focus on candid portraits of vendors, shoppers, and the authentic interactions that make this place so special. Look for moments of connection, concentration, and character.

📍 **Location:** Queen Victoria Market
⏱️ **Duration:** 1-2 hours
📸 **Recommended Gear:** Fujifilm X-T5 with 35mm f/1.4 lens
🌤️ **Weather:** Overcast (perfect for soft light on faces)

💡 **Shooting Tips:**
- Use the 35mm for its natural perspective and fast f/1.4 aperture in the covered stalls
- Shoot from the hip occasionally to capture natural, unposed moments
- Look for interesting backgrounds (colorful produce, hanging goods) to frame your subjects
- Set your X-T5 to continuous AF-C mode for moving subjects

**Creative Twist:** Focus on hands—vendors arranging produce, shoppers selecting items, transactions happening. Hands tell powerful stories!

**Reflection Prompt:** Which moment captured the essence of the market best, and what made that interaction special?

---

**CHALLENGE_SYNC_DATA** (Copy the JSON below to sync to dashboard)

```
{
  "userId": "1",
  "challengeText": "Market Energy: Candid Moments & Stories",
  "category": "MARKET",
  "difficulty": "INTERMEDIATE",
  "duration": "1-2 hours",
  "location": "Queen Victoria Market",
  "recommendedGear": "Fujifilm X-T5 with 35mm f/1.4 lens",
  "tips": "Use 35mm f/1.4 for natural perspective, shoot from the hip for candid moments, look for colorful backgrounds, use AF-C mode",
  "weatherConditions": "Overcast"
}
```

---

📌 **To save this challenge:** Click the "Sync Challenge" button at the bottom right, then copy and paste the JSON above.

Can't wait to see the vibrant market life you capture, Seun! Want me to suggest another location or help plan your shooting schedule?

# 🚨 CRITICAL FORMAT RULES

1. **JSON in code block:** Use ```json fences for easy copy/paste

2. **Label before JSON:** “CHALLENGE_SYNC_DATA” must appear before the code block
3. **Valid JSON:** Proper formatting, no trailing commas, all fields quoted
4. **Match data:** Title, location, gear IDENTICAL in both natural language and JSON
5. **End with sync instructions:** Always remind about the sync button
6. **Variety enforcement:** Check theme/location against recent challenges before generating

## Categories (Use EXACTLY ONE per challenge)

- PORTRAIT
- LANDSCAPE
- STREET
- MARKET
- ARCHITECTURE
- NATURE
- ABSTRACT

## Difficulty (Use EXACTLY ONE per challenge)

- MINI (15-30 minutes)
- BEGINNER (30 min - 1 hour)
- INTERMEDIATE (1-2 hours)
- ADVANCED (2+ hours)

```
---

## ⚙️ TEMPERATURE SETTING (If Available)

After updating both sections, look for:
- **Temperature** slider
- **Creativity** setting
- **Randomness** control

**Set to:** 0.7 - 0.9

| Value | Effect |
|-------|--------|
| 0.0-0.3 | Very repetitive ❌ (current issue) |
| **0.7-0.9** | **Creative variety** ✅ (recommended) |
| 1.0+ | Too random |

If you **can't find** this setting, that's okay - the updated behaviour instructions w
ill help significantly.

---

## 🧪 TESTING AFTER UPDATE

### Step 1: Save Both Sections
1. Save **Behaviour Instructions**
2. Save **Response Instructions**
3. Wait 1-2 minutes for changes to take effect

### Step 2: Start NEW Conversation
**CRITICAL:** Don't test in old conversation

1. Go to: https://myfoto.topues.com/chat
2. Look for **"New Chat"** or **"Reset"** button
3. Start completely fresh

### Step 3: Request 5 Different Challenges

Ask these one at a time:

1. **"Give me a street photography challenge"**
2. **"Give me another challenge"**
3. **"One more please"**
4. **"Can I get a mini challenge?"**
5. **"Give me an advanced challenge"**

### Step 4: Verify Variety

**Expected Results:**
✅ 5 completely different challenge titles
✅ Different locations (Flinders St, QV Market, Hosier Lane, Southbank, Brighton Beach
)
✅ Different themes (Geometry, Reflections, Motion, Portraits, Shadows)
✅ Different categories (Street, Portrait, Market, Architecture, Nature)
✅ Different difficulty levels (Mini, Beginner, Intermediate, Advanced)

**Failure Signs:**
❌ "Light & Shadow Stories" appears again
❌ Same location every time
❌ Same theme repeatedly
❌ Same category pattern
```

```
---

## 🔍 TROUBLESHOOTING

### Issue: Still Getting Same Challenge

**Try these in order:**

1. **Verify Both Sections Saved**
   - Go back to settings
   - Check both Behaviour Instructions and Response Instructions
   - Confirm your changes are there
   - Re-save if needed

2. **Start Brand New Conversation**
   - Click "New Chat" (not just refresh page)
   - Clear conversation history if option exists
   - Wait 2-3 minutes before testing

3. **Clear Browser Cache**
   - Press Ctrl+Shift+Delete (Windows) or Cmd+Shift+Delete (Mac)
   - Clear cached images and files
   - Restart browser

4. **Check Temperature Setting**
   - Look for any "randomness" or "creativity" sliders
   - If found, set to 0.7 or higher
   - If not found, contact support (template below)

5. **Wait for Cache to Clear**
   - Sometimes takes 5-10 minutes
   - Try again after short break

### Issue: JSON Still Visible

**This is separate from variety issue**
- The JSON block should still be visible (for manual copy/paste)
- Check `/home/ubuntu/foto_app/CHATBOT_UPDATE_INSTRUCTIONS.md` if you want to hide it
- However, the manual sync workflow requires visible JSON
