✅ Email Address Fix - COMPLETE with Cache-Busting

Issue

Email was still being sent to old address `seunsamuel11@gmail.com` instead of `seun_salami@outlook.com`

Root Cause

Browser cache was serving the old JavaScript file even after the code was updated.

Solutions Implemented

1. ✅ Verified Email in All Code Locations

File: `/public/email-challenge.js`
- Line 6: Comment shows target email
- Line 13: Console log shows target email
- Line 279: API request uses `seun_salami@outlook.com`
- Line 299: Success notification shows `seun_salami@outlook.com`

Verification:

```
grep -n "seun_salami@outlook.com" public/email-challenge.js
# Result: 4 matches, all correct
```

2. ✅ Added Version Tracking

File: `/public/email-challenge.js`

```
/**
 * Email Challenge Button - Foto AI
 * Version: 2024112401
 * Target Email: seun_salami@outlook.com
 */

console.log('[Foto Email] Script loaded - Version: 2024112401');
console.log('[Foto Email] Target email: seun_salami@outlook.com');
```

3. ✅ Implemented Cache-Busting

File: `/app/chat/page.tsx`

```
<Script src="/email-challenge.js?v=2024112401" strategy="afterInteractive" />
```

This forces browsers to load the new version instead of using cached files.

Deployment Status

✅ **Code verified** - All 4 locations show correct email
✅ **Version added** - Script now logs version on load
✅ **Cache-busting added** - Query parameter forces fresh load
✅ **Built successfully** - No errors
✅ **Deployed to production** - Live at https://myfoto.topues.com

---

🚨 IMPORTANT: Clear Browser Cache

Why You Need to Clear Cache

Even with cache-busting, your browser may have already cached:
- The old HTML page
- The old JavaScript file
- Service workers (if any)

How to Clear Cache

Option 1: Hard Refresh (Recommended)

Windows/Linux:

```
Ctrl + Shift + R
or
Ctrl + F5
```

Mac:

```
Cmd + Shift + R
or
Cmd + Option + R
```

Option 2: Clear Browser Cache

Chrome:
1. Press `Ctrl+Shift+Delete` (Windows) or `Cmd+Shift+Delete` (Mac)
2. Select “Cached images and files”
3. Click “Clear data”

Safari:
1. Press `Cmd+Option+E` to clear cache
2. Or: Develop menu → Empty Caches

Firefox:
1. Press `Ctrl+Shift+Delete` (Windows) or `Cmd+Shift+Delete` (Mac)
2. Select “Cached Web Content”
3. Click “Clear Now”

Option 3: Incognito/Private Mode

Open the site in an incognito/private window to bypass cache entirely.

Verification Steps

Step 1: Check Script Version

1. Go to https://myfoto.topues.com/chat
2. Open browser console (F12)
3. Look for these messages:
   `[Foto Email] Script loaded - Version: 2024112401`
   `[Foto Email] Target email: seun_salami@outlook.com`

Step 2: Check Network Tab

1. Open browser DevTools (F12)
2. Go to “Network” tab
3. Filter by “JS”
4. Reload page
5. Look for: `email-challenge.js?v=2024112401`
6. Verify it’s loading the new version (not from cache)

Step 3: Test Email Delivery

1. Ask chatbot: “Give me a street photography challenge”
2. Click the purple “📧 Email This Challenge” button
3. Verify success notification shows: `✅ Challenge emailed to seun_salami@outlook.com!`
4. Check inbox at **seun_salami@outlook.com**
5. Email should arrive within 5 seconds

Browser Console Verification

Expected Console Output (Correct Version):

```
[Foto Email] Script loaded - Version: 2024112401
[Foto Email] Target email: seun_salami@outlook.com
[Foto Email] 🚀 Initializing email button...
[Foto Email] 🎯 New challenge detected: [Challenge Name]
[Foto Email] Button added to page
[Foto Email] ✅ Challenge emailed successfully
```

If You See Old Version:

```
[Foto Email] Script loaded
# (No version number = old version)
```

Solution: Clear browser cache and hard refresh!

API Test (Direct Verification)

Test the API endpoint directly to confirm it's using the correct email:

```
curl -X POST https://myfoto.topues.com/api/challenges/email \
  -H "Content-Type: application/json" \
  -d '{
    "challengeText": "Test Challenge - Email Fix Verification",
    "category": "STREET",
    "difficulty": "MINI",
    "duration": "10 minutes",
    "location": "Melbourne CBD",
    "userEmail": "seun_salami@outlook.com"
  }'
```

Expected Response:

```
{
  "success": true,
  "message": "Challenge emailed to seun_salami@outlook.com"
}
```

Check your inbox at seun_salami@outlook.com for the test email.

Files Modified

Updated Files:

1. ✅ `/public/email-challenge.js` (4 locations)
   - Line 6: Version comment
   - Line 13: Console log
   - Line 279: API request
   - Line 299: Success notification

2. ✅ `/app/chat/page.tsx`
   - Added cache-busting parameter: `?v=2024112401`

3. ✅ `/.env`
   - `FROM_EMAIL=seun_salami@outlook.com`
   - `USER_EMAIL=seun_salami@outlook.com`

Documentation Updated:

- `EMAIL_UPDATE_COMPLETE.md`
- `ONE_CLICK_EMAIL_COMPLETE.md`
- `EMAIL_BUTTON_VISUAL_GUIDE.md`
- `EMAIL_CHALLENGE_SETUP.md`

Troubleshooting

Problem: Email still goes to old address

Solutions:

1. ✅ Clear browser cache (see instructions above)
2. ✅ Hard refresh the page (Ctrl+Shift+R)
3. ✅ Try incognito/private mode
4. ✅ Close and reopen browser
5. ✅ Check console for version: should show `2024112401`

Problem: Button doesn't appear

Check:

1. Console shows script loaded message
2. Network tab shows `email-challenge.js?v=2024112401` loaded
3. No JavaScript errors in console
4. Challenge is properly formatted in chat

Problem: Email not received

Check:

1. ✅ Spam/Junk folder in Outlook
2. ✅ Console shows "Challenge emailed successfully"
3. ✅ Network tab shows successful POST to `/api/challenges/email`
4. ✅ SendGrid is configured (check .env)

Summary

What Was Fixed:

- ❌ **Old:** Email sent to `seunsamuel11@gmail.com`
- ✅ **New:** Email sent to `seun_salami@outlook.com`

How It Was Fixed:

1. ✅ Updated all 4 code references
2. ✅ Added version tracking for debugging
3. ✅ Implemented cache-busting parameter
4. ✅ Built and deployed to production

Status:

🟢 **LIVE** - All changes deployed to https://myfoto.topues.com

Critical Next Step:

🚨 **CLEAR YOUR BROWSER CACHE** - This is essential!

Quick Test Script

Run this in your browser console to verify the correct email:

```
// Check loaded script version
console.log('Checking email configuration...');

// Try to extract email from button click handler
const btn = document.querySelector('[data-foto-email]');
if (btn) {
  console.log('✅ Email button found');
} else {
  console.log('❌ Email button not found - ask for a challenge first');
}

// Check script version
if (window.location.href.includes('chat')) {
  setTimeout(() => {
    console.log('Expected email: seun_salami@outlook.com');
    console.log('Check console above for [Foto Email] messages to verify version');
  }, 2000);
}
```

Final Confirmation

Deployment: ✅ Complete
Email Address: ✅ seun_salami@outlook.com
Cache-Busting: ✅ Enabled
Version: ✅ 2024112401
Status: 🟢 **READY TO TEST**

🚨 **ACTION REQUIRED:** Clear your browser cache, then test!

Last Updated: November 24, 2025
Deployed to: https://myfoto.topues.com
Script Version: 2024112401
Target Email: seun_salami@outlook.com
