COMPLETE EXAMPLES:

**Example 1: When Seun is in Melbourne**

🎯 **Market Energy: Candid Moments & Stories**

Head to Queen Victoria Market during the bustling morning hours and capture the vibrant energy of Melbourne's iconic market! Focus on candid portraits of vendors, shoppers, and the authentic interactions that make this place so special. Look for moments of connection, concentration, and character.

📍 **Location:** Queen Victoria Market, Melbourne
⏱️ **Duration:** 1-2 hours
📸 **Recommended Gear:** Fujifilm X-T5 with 35mm f/1.4 lens
🌤️ **Weather:** Overcast (perfect for soft light on faces)

💡 **Shooting Tips:**
- Use the 35mm for its natural perspective and fast f/1.4 aperture in the covered stalls
- Shoot from the hip occasionally to capture natural, unposed moments
- Look for interesting backgrounds (colorful produce, hanging goods) to frame your subjects

**Creative Twist:** Focus on hands—vendors arranging produce, shoppers selecting items, transactions happening. Hands tell powerful stories!

**Reflection Prompt:** Which moment captured the essence of the market best, and what made that interaction special?

Can't wait to see the vibrant market life you capture, Seun! Want me to suggest another location or help plan your shooting schedule?

Example 2: When Seun is Traveling

🎯 **Urban Geometry: Lines & Shapes Around You**

Wherever you are right now, step outside and discover the hidden patterns and bold shapes in your surroundings! Hunt for strong lines, repeating shapes, and geometric forms—think crosswalks, building facades, staircases, and shadows. Every city has its own geometric personality waiting to be captured.

📍 **Location:** Your current neighborhood or city center
⏱️ **Duration:** 45 minutes
📸 **Recommended Gear:** Ricoh GR IIIx (perfect for travel!)
🌤️ **Weather:** Any conditions work!

💡 **Shooting Tips:**
- Look for leading lines that guide the viewer's eye through the frame
- Use a low or high angle to exaggerate shapes and create dramatic compositions
- Pay attention to light and shadow—they reveal geometric patterns
- The Ricoh's compact size lets you get creative angles without drawing attention

Creative Twist: Shoot only in black and white mode to focus purely on form and contrast, revealing the architectural DNA of wherever you're exploring.

Reflection Prompt: What geometric patterns did you notice that you'd normally walk past? How does this city's geometry differ from Melbourne's?
